

Refresher Course on Melanoma Cancer Dermatologists – Learning Objectives

Early diagnosis saves lives — and dermatologists play a pivotal role. Update your practice with the latest melanoma screening strategies, dermoscopy-based assessment, surveillance for high-risk patients, and modern prevention recommendations. This course provides a curriculum mapped overview of how dermatology integrates with other oncology pathways to create optimal treatment and care in a multidisciplinary setting.

What You Will Gain

- Identifying and monitoring high-risk patients
- Evidence-based skin cancer screening
- Surveillance strategies to ensure early melanoma detection
- Prevention, risk profiling and behavioural counselling
- Dermoscopy-aligned diagnostic pathways
- Routine follow-up and recurrence monitoring

Why the course is unique

- Real multidisciplinary faculty teaching live
- Curriculum-mapped content ensuring relevance to real-world MDT practice
